

Foreword

It is my privilege to present to you the Annual Report for Tiaong Water District for the Calendar Year 2014. I hope you will find this report both informative and interesting and that it will give you a greater understanding of the work undertaken by our organization. More importantly, the Annual Report shows the result of Tiaong Water District operation for the year 2014. It provides information about the Water Districts Financial Standing and Growth.

During the Year 2014, Tiaong Water District with the aid of Local Water Utilities Administration (LWUA) began its expansion projects. One (1) additional Barangay (Tagbakin) and four hundred fourteen (414) New Service Connection was now served by the Water District. When Quezon Province was hit by typhoon Glenda on July 2014, the Tiaong Water District was affected. Water pipelines was damage but due to Tiaong Water District preparedness and prompt action, it able to restore service line immediately.

Water is the heart of our Industry. Our hands serve as waterways from source up to our concessionaires. The challenge is how far can we reach them without spilling a drop from our hands? The goal of Tiaong Water District is to reach them all. As the world is facing significant environmental and sustainability related challenges, mega-trends such as climate change and population growth, Demand for water increases. Our business grows and our geographic footprint expands. We have to consistently evolve what we do and force ourselves to find new ways to sustain our operations and, in the process, reduce the loss of each drop of water.
