**ANNUAL REPORT
FOR THE YEAR 2015**

Foreword

It is my privilege to present to you the Annual Report for Tiaong Water District for the Calendar Year 2015. I hope you will find this report both informative and interesting and that it will give you a greater understanding of the work undertaken by our organization. More importantly, the Annual Report shows the result of Tiaong Water District operation for the year 2015. It provides information about the Water Districts Financial Standing and Growth.

During the Year 2015, Tiaong Water District with the aid of Local Water Utilities Administration (LWUA) began its expansion projects. Three (3) additional Barangay (Bula, Tagbakin and Tamisian) and five hundred forty four (544) New Service Connection was now served by the Water District.

Water is the heart of our Industry. Our hands serve as waterways from source up to our concessionaires. The challenge is how far can we reach them without spilling a drop from our hands? The goal of Tiaong Water District is to reach them all. As the world is facing significant environmental and sustainability related challenges, mega-trends such as climate change and population growth, Demand for water increases. Our business grows and our geographic footprint expands. We have to consistently evolve what we do and force ourselves to find new ways to sustain our operations and, in the process, reduce the loss of each drop of water.

VISION

To provide the entire Municipality of Tiaong clean, potable and affordable supply of water

To cooperate and coordinate with Government Agencies, Water Associations and Private Entities to ensure sustainable water supply in the locality

To act as catalyst to economic growth of Tiaong by providing better water services to its consumers

MISSION

The Tiaong Water District exists as an institution tasked to provide clean, safe and affordable water.

I. WATER DISTRICT HISTORY

Tiaong Water District was created thru Municipal Resolution No. 68 which was passed on November 19, 1980 by the local government of Tiaong, Quezon. This resolution gave the water district full control and administration of the waterworks operations in the municipality in accordance with P.D. 198 better known as the "Local Water Utilities Act of 1973" as amended by P.D. Nos. 768 and 1479.

Tiaong Water District was issued the Conditional Certificate of Conformance (CCC) on May 4, 1981 by the Local Water Utilities Administration which enabled it to operate under standard specifications.

The first source of water of Tiaong Water was a spring from a Mountain in Ayusan II. The quantity from the spring could not sustain the increasing demand of concessionaires. Therefore to improve the Quantity and Quality of Water, the District Develop a new source, Ayusan, Lusacan and Lagalag Pumping Station which began its operation on 2001, 2005 and 2009 respectively. Tiaong Water District develop new source of water at Ayusan II Pumping Station on November 2012 that replace Ayusan Pumping Station.

At present, Tiaong Water is a Category C Water District that has 5,330 active concessionaires is classified as residential and commercial. The present service area of the district is divided into fifteen (15) zones within the town of Tiaong, Quezon. The Tiaong Water District has served 22 Barangay out of 31 Barangay (71%) of Municipality of Tiaong.
